

# Olive Room Activities 6/15-6/19

---

Hi everyone hope all is well. This week we are talking about the ocean that's always fun to do. I have posted 3 videos this time, a welcome to circle look who's here and 2 story videos ( SHARKS & Clark the Shark) fun fun stories.

Special snack: Fishes in the ocean.

Art: Cut out a pattern of a whale shark paint it black on both sides when all dry take a Qtip and dab in white paint for dots then you can glue a stick on for hand held or hole punch for hanging it up. Have fun.

In class we decided to start ocean week by learning about sharks, I know a lot of you might know alot about sharks, but here are some fun facts you might not know.

#Do sharks fart? Why yes they do, when they gulp air from the surface the air goes through their body and comes out their cloacas(look that one up).

# Sharks can't blink

# Ugliest shark: Goblin shark you should see that one

It is said there are around 440 different species of sharks. WOW

Well I hope you all have fun exploring and if you have any questions email me or call the school I'm here. Miss everyone

Sneak Peek at next week ocean bottles so please save a bottle ☐
